Learning Corner:

The children made a city using Legos. Playing and building together opened-up peer communication. Through play, children develop skills of co-operation, problem-solving and understanding other points of view.

The children had a wonderful time making Valentine's Day caterpillars!

We invited a Grade 6 student from our school to teach us how to make hearts from paper! We had a very interesting

lesson in origami!

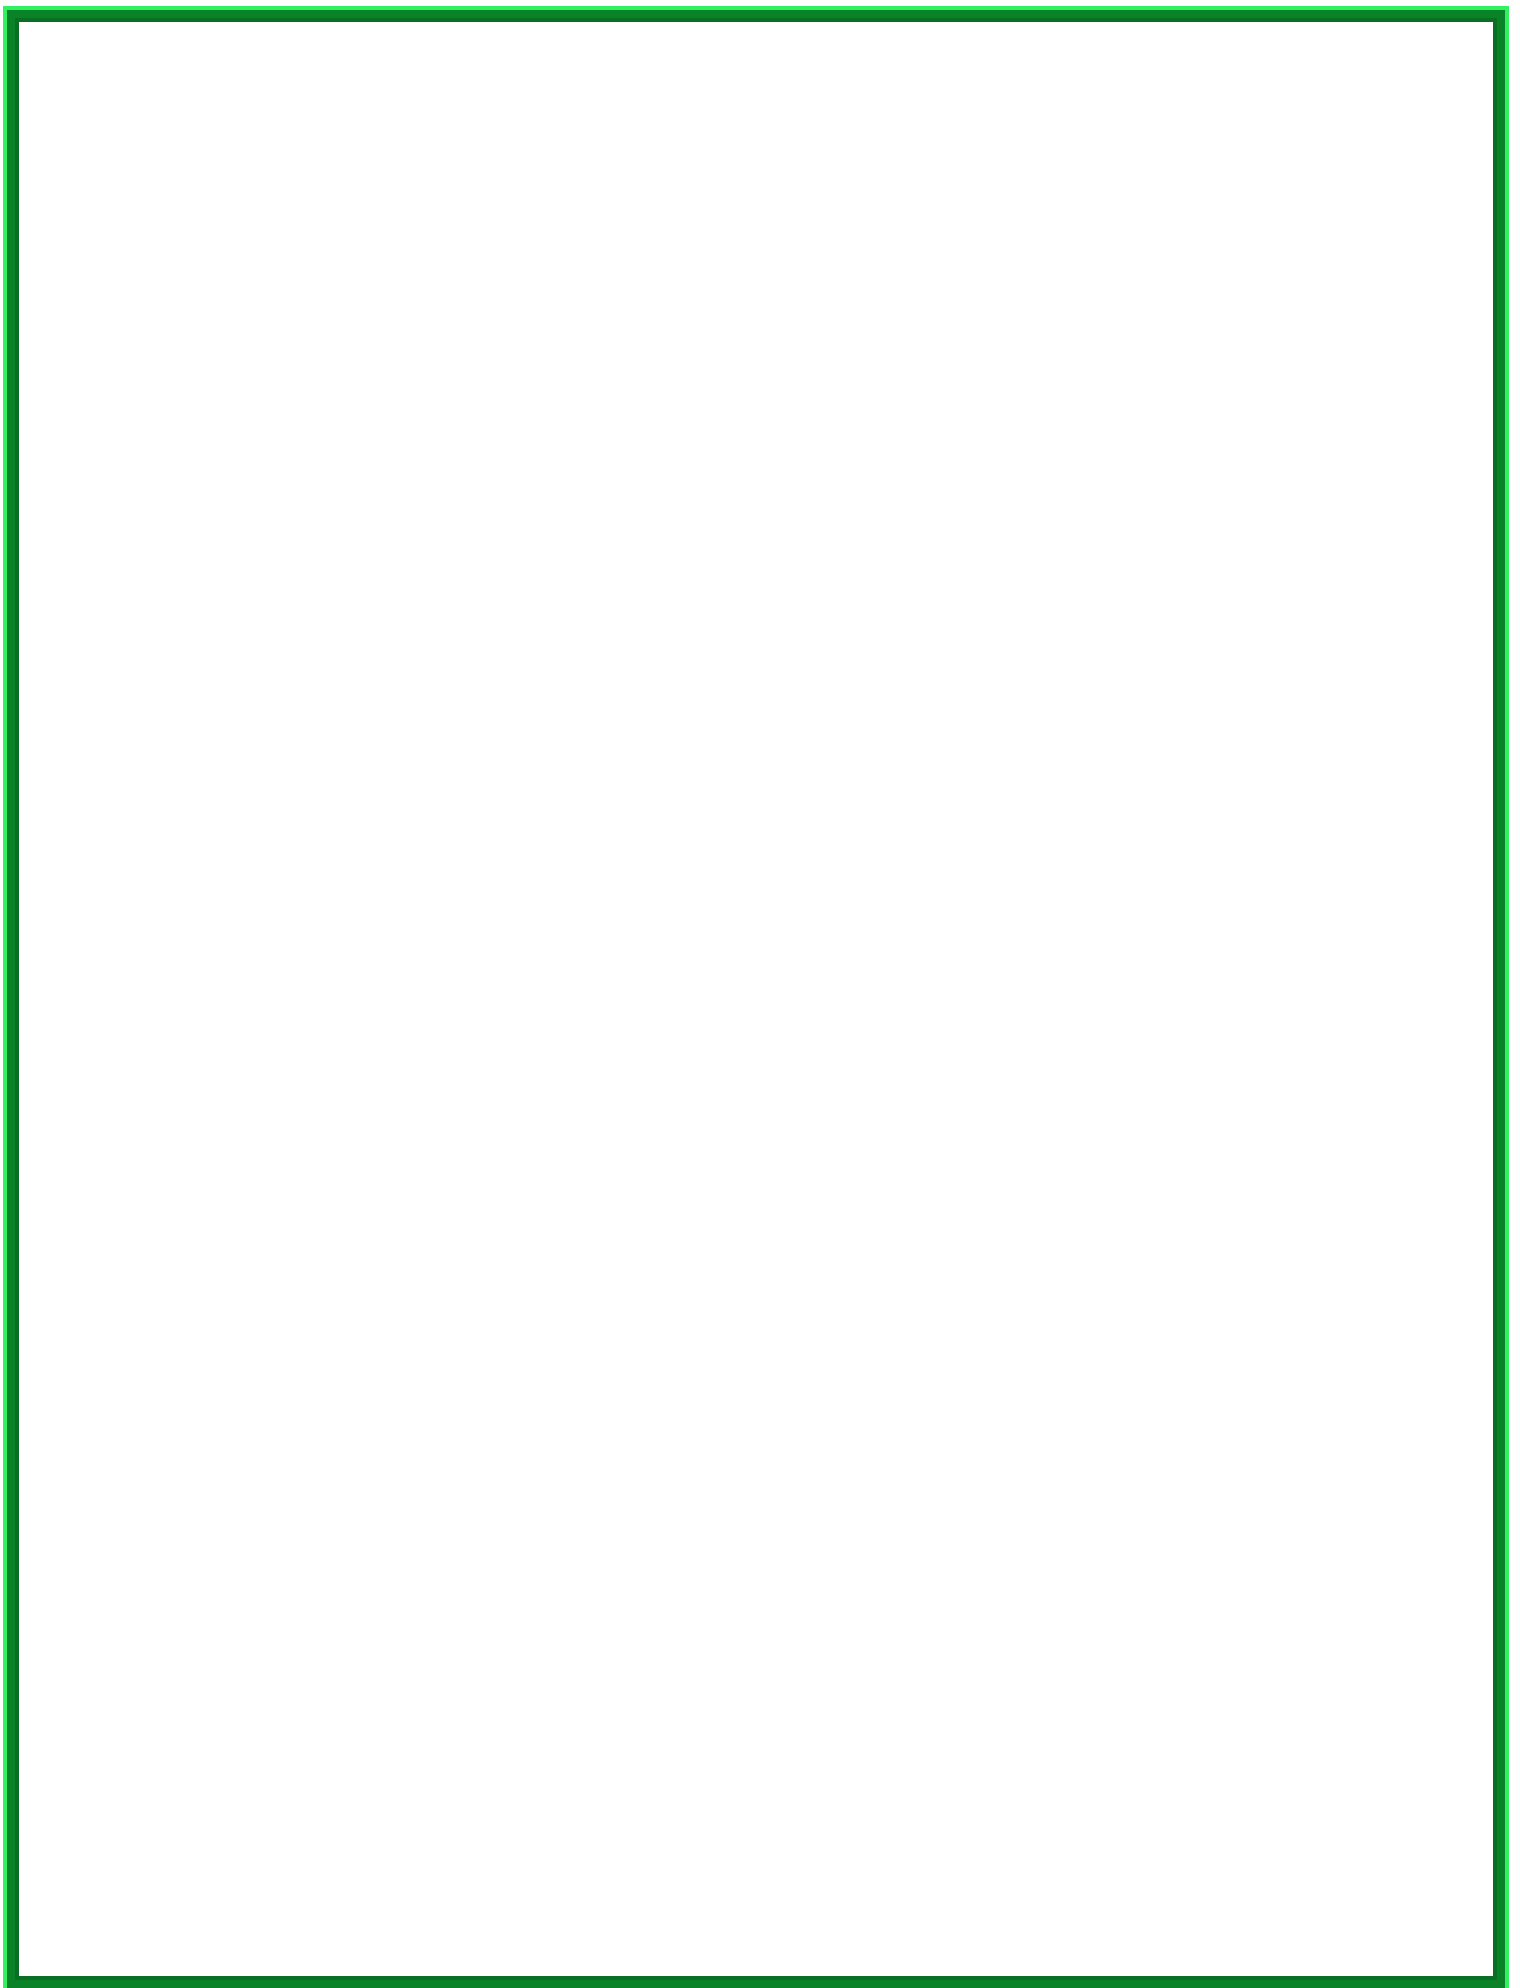

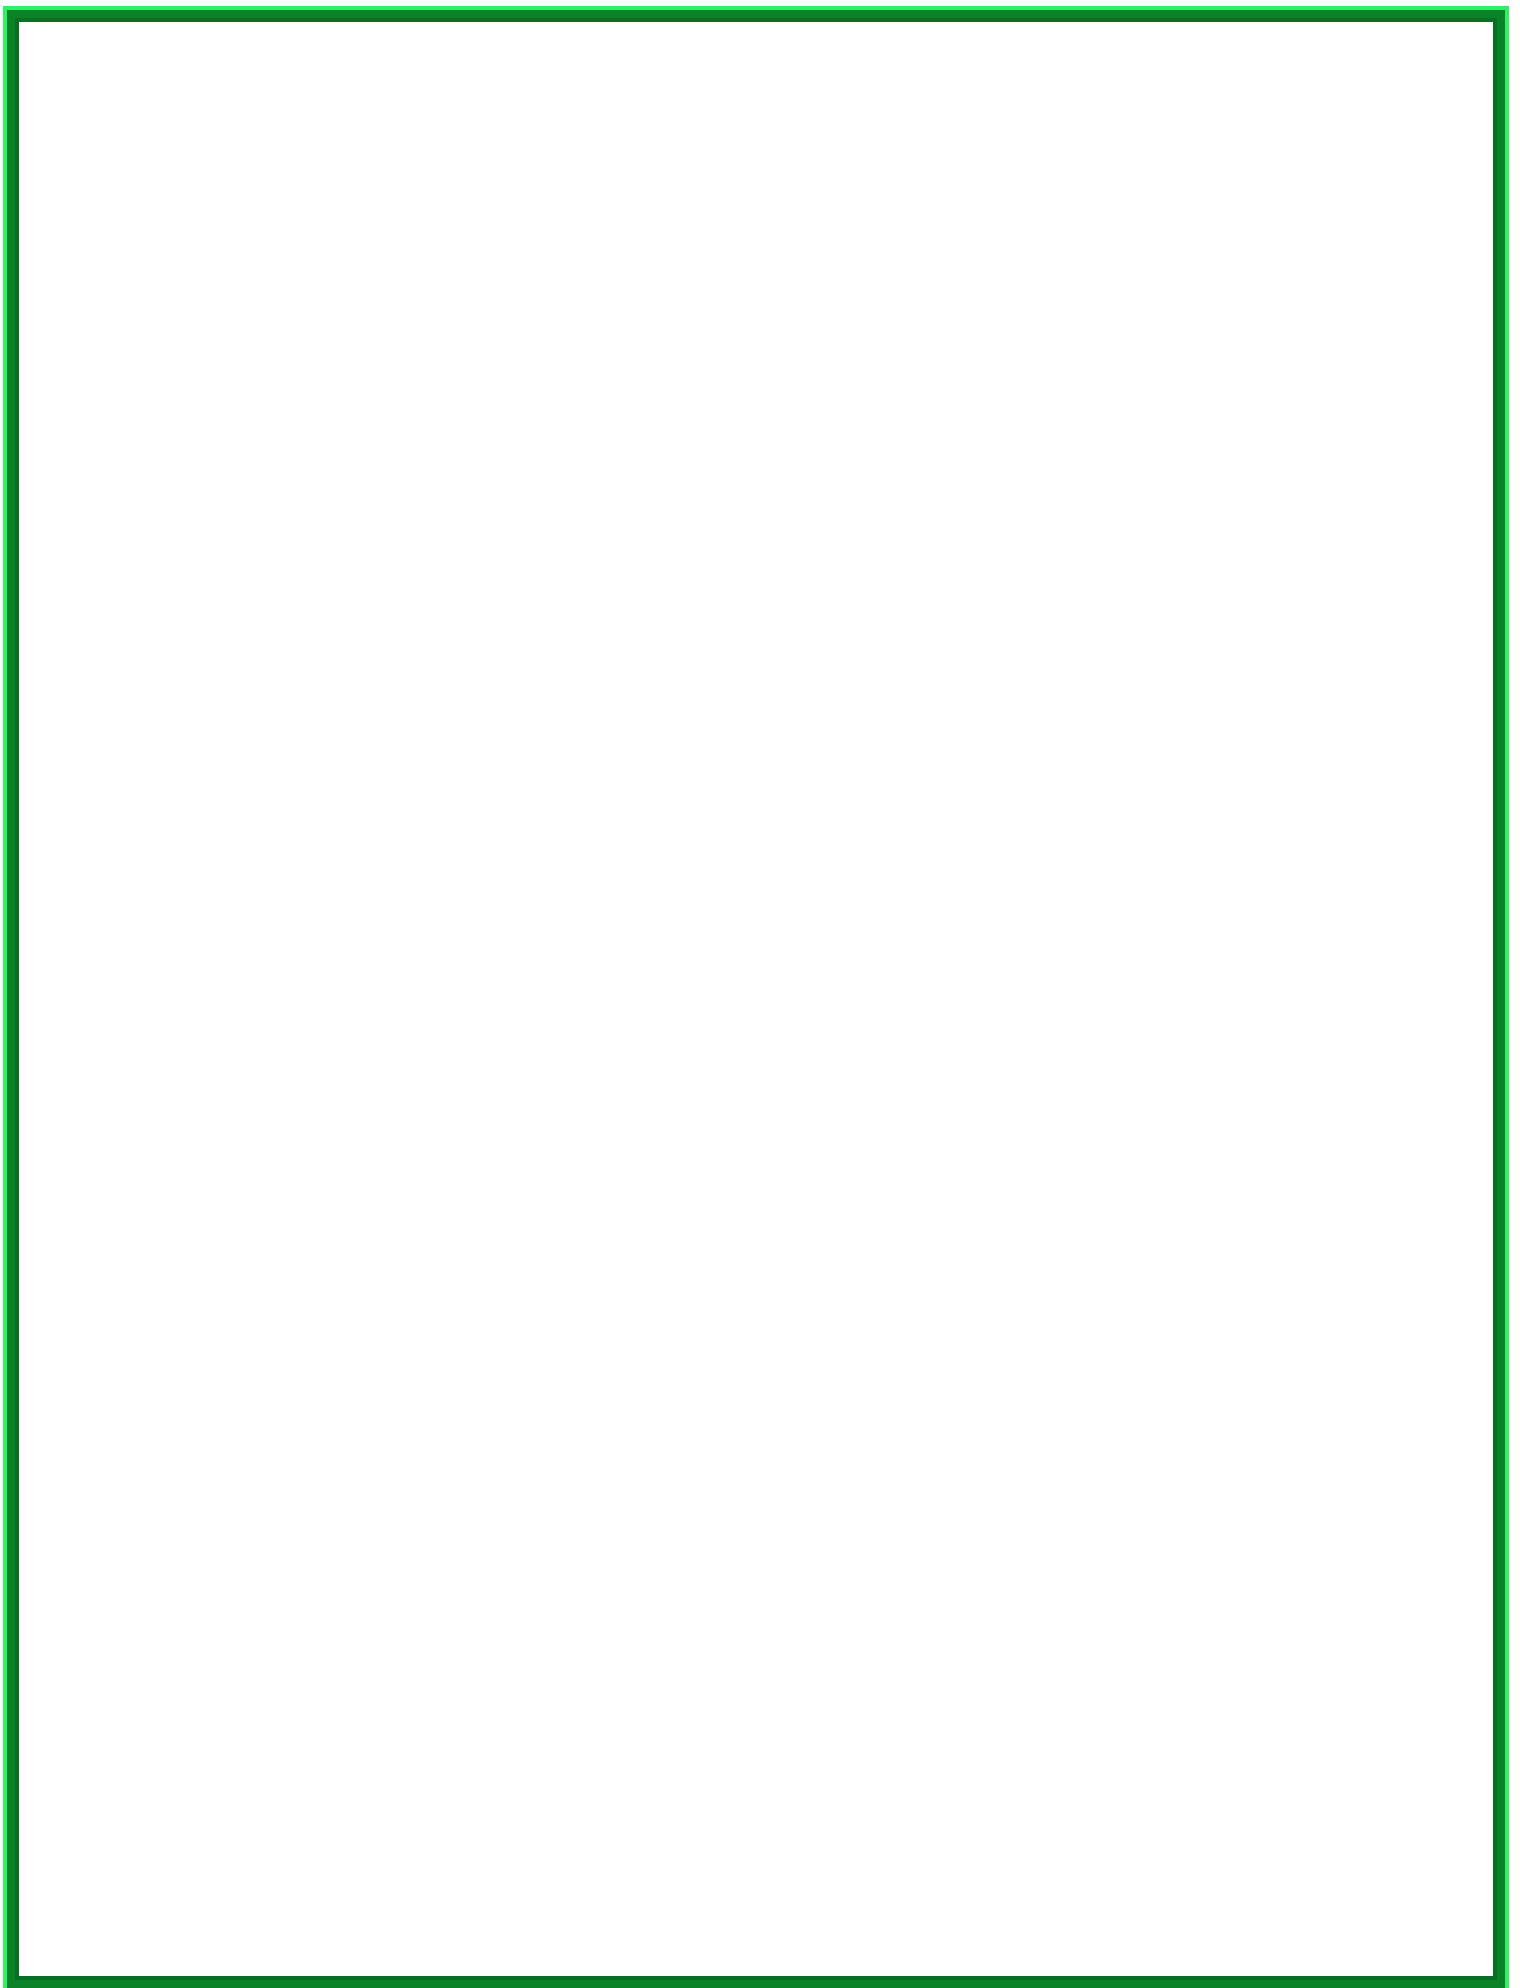

The kids were busy making slime for many days, because they found it to be an exciting sensory activity! They also got creative with

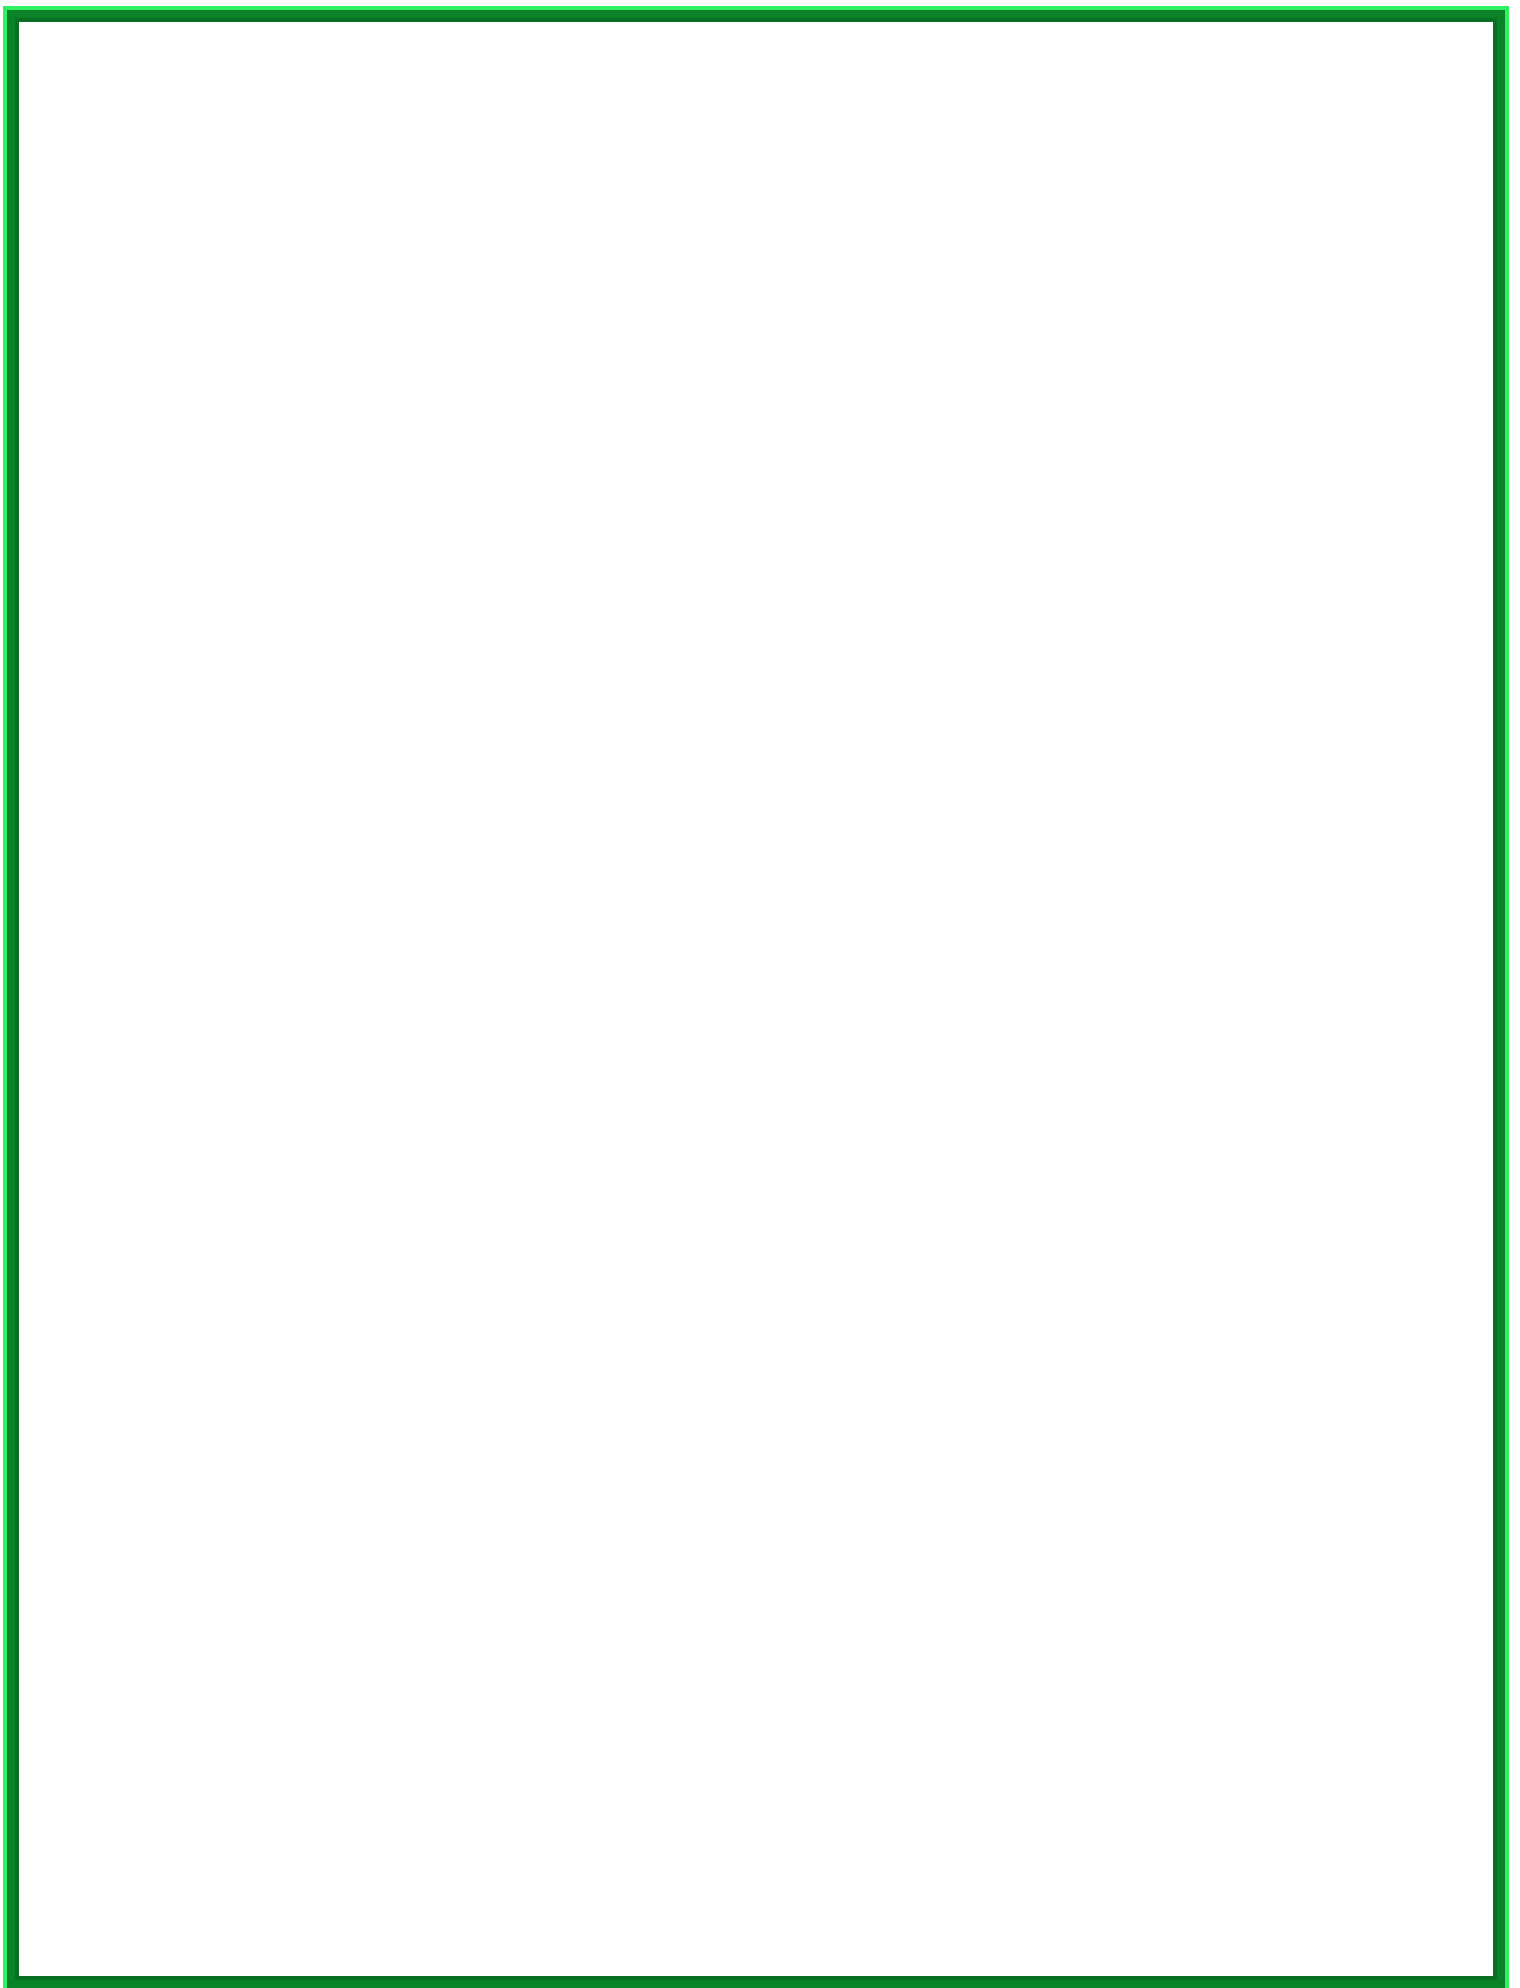

paint and masking tape!
