

Activity 1 - Thanksgiving Turkey craft

Before starting this paper Turkey craft , the teacher explained to children " Thanksgiving is a chance to bless and say thank you to someone who takes care of you, and helps you in the past year". Teachers also show children step by step how to make the paper Turkey. In this activity, Children have the opportunity to practice their cutting skill , write a short message, and drawing skill. This is indicated when Child U wrote " I love you mommy", and child G wrote " Thank you mommy for taking care of me".

Activity 2 Halloween Black cat raft

" I have a black cat at home"

" I like Halloween, because I can get candies"

"Halloween is coming soon"

Before start this activity, the teacher had a discussion with children `` Can you think of anything to represent Halloween? ". " Do you like Halloween? ". There are different answers in the discussion, but most children wanted to make a black cat craft for Halloween. Therefore, we decided to make a black cat. When children made the black cat, teachers were there to support, and show children step by step. Children were proud of what they made, and we took a group picture, after they finished the craft

Activity 3- Rain cloud Jar science experiment

" What color it is when red and yellow mix together"

" We can try to put shaving cream first"

" Maybe we put in too much water".

Children were very excited, and curious to see the science experiments. Most of them wanted to participate in this experiment. The first attempt, we put water in the clear jar, then added shaving cream, and food coloring. It was not a success, since the food coloring did not go down. The second attempt Child Q suggested try to put shaving cream first, but still not successful, so we decided to give some time to wait and see, after ten minutes the food coloring did go down. . In this experiment, children learned to use trial and error methods to solve problems.
